

# ERESCO MF4 Administrator Kit

Off-line reporting, programming and evaluation

# MF4 Administrator Kit

The MF4 Administrator Kit is a handy and powerful kit to utilize the extended features of the MF4 series. It simplifies workflows in X-ray inspection setup and evaluation.

By means of a PC based application (MF4 Admin) and a serial interface cable connected to the MF4 Control, the entire memory of the ERESO MF4 control as well as the ERESO MF4 radiation unit is accessible and can be administrated.

## MF4 Administrator supports following main features

- Operation in Stand-Alone mode (ERESCO MF4 control can be used w/o radiation unit being connected)
- Download of Operation History from Control and Radiation Unit
- Download of Warm-up History from Control and Radiation Unit
- Download of Device Configuration form Control and Radiation Unit
- Download of Exposure Program List
- Creation / Modification / Upload of Exposure Programs (incl. kV, mA, time and reserved space for 20 characters program description)
- Archiving of downloaded files
- Export to CSV format (e.g. for automated report generation)
- Import of previously stored files
- Print Function

## Scope of Delivery

- CD-ROM (incl. installation files and documentation)
- RS-232 interface cable (5 m)
- Language: English

## System Requirements

- Industrial Standard PC
- Pentium III P3-500 MHz or higher
- 128 MB free RAM
- 100 MB free harddisk space
- Windows 2000/NT 4.0 or Windows 95/98/ME/XP
